INDEX TO TROPICAL AGRICULTURE

Index to Volume IX—January to December, 1932.

Nos.	Months.	Pages.
1	January	1-32
2	February	33-60
3	March	61-92
4	April	93-132
5	May	133-164
6	June	165-196
7	July	197-228
8	August	229-260
9	September	261-296
10	October	297-328
11	November	329-356
12	December	357-384

Supplements.

	Pages.
The Economic Botany of Cacao, by E. E. Cheesman (June)	16
Studies in West Indian Soils. (IV)—The Cacao Soils of Grenada, their Origin, Formation and Chief Characters, by F. Hardy, J. A. McDonald and G. Rodriguez (December)	28

Reports.

First Annual Report on Cacao Research, 1931	43
Report of the Marketing Officer Superintending the Fruit and Vegetable Trades, Leeward and Windward Islands, B.W.I. (August, 1931 to September, 1932)	28

Memoirs.

A Further Preliminary List of Trinidad Fungi, by C. A. Thorold	30+viii

College News Bulletins.

January, April, July, October	16

GENERAL INDEX.

A.

	Pages.
Accurate Milling Control	38-42
Acknowledgment	89, 235, 300
Africa, Industries of West, East and Central	379-80
do. Yellow Fever in West	235
Agricultural Depression	1-2
Agriculture and Forestry	79-82
do. in Ceylon	184
Appointments, Colonial	249
Appreciation	249
Arrowroot Leaf Roller	299-300

B.

Banana Diseases, IV	3-6
do. Research	33-34
Bananas, Manuring	352
do. Pitting Disease of	193-95
Bean Disease, Coffee	127
Bee-Keeping in Tanganyika, Native	231-35
Beeswax, Tanganyika	82
Bermuda Tomatoes	226
do. Packing Tomatoes in	89
Biological Control of Cane Grubs	331-33
Biologists, Need for	62
Bird Migration	162
Books Presented	235, 271
do. Received	94, 299, 330
Borer, Cane Moth	57
do. Damage in relation to Sugar Cane Varieties in British Guiana, Moth	264-71
Boron and Citrus	243
Botany of Cacao	165-66
Bovine Tuberculosis and the Pasteurisation of Milk	249
British Guiana, Moth Borer Damage in relation to Sugar Cane Varieties in	264-71

C.

Cacao, *see* Cocoa.	
Cane, *see* Sugar.	
Cattle, West Indian	376
Ceylon, Agriculture in	184
do. Impressions of a West Indian Planter in	156-62
Chemical Notes 30, 58, 90, 130, 163, 227, 259, 295, 327, 355, 382	
Citrus and Boron	243
do. Experiments	301-06
do. Vegetative Propagation of	135-40
Cocoa, Botany of	165-66
do. Fruitfulness of	288-90
do. Industry of Trinidad :	
Part I	95-100
Part II	145-52
Part III	185-92
Part IV	200-05
Part V (Sec. 1)	236-43
Part V (Sec. 2)	307-17
Part V (Sec. 3)	334-45
do. Soils	88
do. Uniformity Trials on	277-88
Coffee Bean Disease	127
do. Trees in Costa Rica, Observations concerning the Healthiness of	350-51
Colonial Appointments	249

C.—*Continued*

	Pages.
Commodities, Sugar Cane	261-63
Concerning Manuring	297-99
Consulting Sugar Technologists	34
Contribution to the Knowledge of Witch-broom Disease	167-76
Control of Cane Grubs, Biological	331-33
Cotton Notes	126-27
do. Sea Island	93-94
Crop Products Manufacture in 1931	131
Cultivation Experiments with Sugar Cane, I	120-26
do. of Sisal	195
Cultivator, Problems of the Iraq	252-57

D.

Degree Brix (Hydrometer) and Degree Brix (Refractometer) in Final Molasses, Relationship between	218-23
Depression, Agricultural	1-2
Disease, Coffee Bean	127
do. Contribution to the Knowledge of Witchbroom	167-76
do. in the Gambia, Groundnut Rosette	211-17
do. of Bananas, Pitting	193-95
do. Panama	83-86
Diseases, Banana	3-6
do. in Trinidad, Tomato	63-71, 101-05
do. Rice	380
Dominica Fruit Flies	2

E.

Economy and Production, Rural	133-34
Empire Fibres	333
do. Forestry	229-30
do. Fruit	197-99
Entomological Note	361
Erosion, Soil	257
Errata	163, 195, 217
Experiments, Citrus	301-06
do. Field	7-10
do. with Sugar Cane, Cultivation, I	120-26
do. with Sugar Cane, Manurial, IV	44-53
do. do. do. I	153-55
do. do. do. II	177-84
do. do. do. III	206-10

F.

Fever in West Africa, Yellow	235
Fibres, Empire	333
Field Experiments	7-10
Final Molasses, Relationship between Degree Brix (Hydrometer) and Degree Brix (Refractometer) in	218-23
Fire-Flies, Luminosity of	131
Flies, Dominica Fruit	2
Flying Fish, Flight of	87
Forestry and Agriculture	79-82
do. Empire	229-30
Fruit and Vegetable Industry of the Leeward and Windward Islands	362-70
do. and Vegetables	357-58
do. Empire	197-99
do. Flies, Dominica	2
Fruitfulness of Cacao	288-90

G. PAGES.

Grapefruit Production 166
Gros Michel and Pisang Embun .. 87, 166
Groundnut Rosette Disease in the Gambia 211-17

THE VEGETATIVE PROPAGATION OF CITRUS.

Plate I.

1. Sour orange—a typical hardwood propagated plant 136
2. West Indian lime—from a semi-hardwood cutting 136
3. West Indian lime—two branches rooting from marcottage 136
4. Rangpur lime—production of roots from the bases of two ringed hardwood cuttings .. 136

Plate II.

5. Propagator used for hardwood cuttings 137
6. Root cutting of *Citrus excelsa* 137

Plate III.

7. Root propagation in the West Indian lime 160
8-9. Rooted leaf cuttings of Citron 160
10. Developing leaf cutting of Rangpur lime ten weeks from setting 160

QUICK VINEGAR PRODUCTION.

2. 257

THE BIOLOGICAL CONTROL OF CANE GRUBS.

1. Eggs and young larvae of *C. tasmaniensis* 332
1a. Cocoon of Digger Wasp cut open to show the pupa inside 332
2-2a. Maggot and cocoon of Digger Wasp 332
3. Digger Wasp parasite—*Campsomeris tasmaniensis*, Sauss. 332
4. Cage containing host grub to be attacked by Wasp parasite 333
5. Tins for storing grubs intended to be used as hosts 333
6. Wooden die for making concavities in the soil of a breeding tray 333
7. Surface of a breeding tray 333
8. Grey-back grubs killed by fungus *Metarrhizium anisopliae*, Metsch. Sor. 333

MANURING BANANAS.

1-2. Contrasting manured and unmanured stools 352
3-4. Showing attack of *Tomarus* beetle on banana bulbs 353
